WORK EXPERIENCE(4.5years)

Adobe

May 2024 – Present

Product Manager, Adobe Illustrator(1.5years)

Noida

Generative AI(visual design and art generation)

- Led 0-to-1 strategy for 'Project Turntable,' a **Computer Vision** powered feature transforming 2D vector art into rotating 3D vectors
- Achieved **50% beta MAU** adoption and **56% CSAT** within 30 days by leading the **0-to-1 strategy** and launch for 'Turntable'.
- Captured a new **"Character Artist"** user segment by translating complex creative needs into precise **GenAI model** requirements.
- Established rigorous **model evaluation frameworks**. Reduced **hallucination** rates and improved output quality, directly impacting **retention**.
- Leading the development of **MCP based AI agent** to enable Adobe ecosystem cross-app connectivity, helping users work faster design workflows

Core Product Growth & Modernization

- Delivered a **15% MAU uplift (300K+ adoptions)** by shipping **5+ features** that modernized the **Artboard** tool user experience.
- Drove **12% monthly adoption** of new Artboard creation workflows by shipping usability features like **visible names and artboard color**.
- Lifted **monthly GenAI engagement** by **1%** by executing **5 strategic PLG experiments** and successfully RTP of **2 winning variants**.
- Spearheading the '**Infinite Canvas**' roadmap to achieve competitive parity with Figma and eliminate the **#1 user pain point** of spatial constraints.

Product Operations & GTM

- Established **Illustrator's Social Sentiment Dashboard** to drive data-led prioritization and identify top user detractors in real-time.
- Orchestrated the **end-to-end GTM strategy** for **3 major releases**, aligning PMM, Legal, and PR leadership to hit all launch targets.

Oracle Financial Services Software

Aug 2019 – Jun 2022

Associate Consultant (3years)

Bangaluru

- Engineered a centralized Hadoop data platform to process over **80 million** daily transactions across 5 business verticals.
- Slashed business query processing time by **50%** by re-architecting legacy data **pipelines using Spark** for faster decision-making.
- Delivered **5x faster query run-times** for financial clients by designing and building a custom low-latency data staging platform.

INTERNSHIP AND PROJECTS

Adobe

May 2023 – Jun 2023

Content-Led Growth Strategy | Adobe Illustrator on the Web (PM Intern Project)

- Secured a **Pre-Placement Offer (PPO)** by architecting a comprehensive **content-led growth strategy** green-lit by senior leadership.
- Integrated the strategic plan into the H1 2024 product roadmap to **drive user acquisition through pre-made template discovery**.
- Defined **3 core user personas** and value propositions by synthesizing insights from **200+ interviews and 1,000+ survey responses**.

IIM Ahmedabad

Oct 2024 – Mar 2024

Business Case Study | The Impact of Reddit's API Pricing Change

- Quantified a 4% reduction** in user engagement across key subreddits by conducting data analysis on **Reddit's 2023 API** pricing impact.
- Formulated strategic frameworks for digital platforms to balance aggressive monetization targets with community trust and ecosystem health.

EDUCATION

Indian Institute of Management Ahmedabad

2022-2024

MBA

Ahmedabad

Jadavpur University

2015-2019

B.E. in Electronics & Instrumentation

Kolkata

AWARDS & SKILLS

- Oracle Rising Star Award:** Awarded for delivering high-impact engineering solutions and optimizing critical financial data pipelines.
- Product Strategy & Vision, Roadmap & Prioritization, Generative AI & ML Products, Go-to-Market (GTM) Strategy, User Research, A/B Testing, AI/ML: Large Language Models (LLMs), Computer Vision, Prompt Engineering, Model Evaluation, RAG, Segmentation.
